

Bringing the ocean into the classroom and the classroom to the ocean...

Because **lasting conservation** starts with **EDUCATION**

Key Offers

Field Trips

- Visits to marine conservation sites for practical fieldwork skills and experiential learning.
- Guided support for teachers before, during and after the fieldtrip.
- Insights into real-world conservation work and nature-based careers.

School Careers Talks

- Talks from the Blue Marine team to inform students on the variety of important roles within ocean conservation.
- Learn about their diverse career pathways and experiences.
- Tailored for all year groups.

"Our school trip was incredible. We learnt about the vast amount of life in the ocean and what it does for us with an incredible hands-on experience. We didn't just study in the class; we went out, explored and made learning adventurous. It was the perfect mix of outdoor fun and education."
